❖ **MUTUAL UNDERSTANDINGS AND CONSENT TO TREATMENT**

The following information is provided to enable our sharing of a common understanding of our rights and roles in this professional therapeutic relationship. Please read this agreement and sign at the bottom indicating that you have understood and agreed to the following. Please ask any questions if you would like additional information.

- ◆ **Teamwork:** Treatments with other physicians or healthcare providers are not necessarily to be discontinued. Please let Dr. Vasquez know if you are being treated by other healthcare providers (physicians, counselors, therapists, etc.). Consult your prescribing doctor before discontinuing medications. It is your responsibility to disclose changes in your condition, symptoms, contact information, or treatments between visits. You are encouraged to ask questions on any health-related topic and to take an active role in your health-care. Ours is a team approach, and natural treatments may involve encouraging you to make changes in your diet and lifestyle that can help you attain your highest level of health.
- ◆ **Confidentiality:** Information revealed during counseling sessions and office visits/consultations is confidential. Exceptions to this confidentiality include disclosure by you regarding intention to harm yourself or others. Your record and the information contained within it will not be disclosed to others unless you direct us to do so or unless the law authorizes or compels us to do so. Dr Vasquez is happy to work with your other healthcare providers; physicians are often in contact with each other regarding the care of patients who are under the care of multiple physicians (i.e., “co-managed”) and this communication does not require consent by the patient.
- ◆ **Risks and benefits:** Each procedure and/or treatment carries with it both risks and benefits. There may be additional or alternative treatments available. You are encouraged to ask questions if you would like additional information. Although your plan will be thoroughly researched and will be customized to your unique health status and your personal goals, no guarantees can be assured regarding the outcomes of treatment(s) or procedure(s). If you are prescribed medications, you should read the information that accompanies any prescription items; consult with the dispensing pharmacist to ensure that you understand how to take the medicine and which—if any—adverse effects might occur. Additional information can be found at <http://www.nlm.nih.gov/medlineplus/> from the US National Institutes of Health. Only take medications that you are comfortable taking based on the potential risks and benefits.
- ◆ **Limitations of telemedicine:** Phone visits and internet consultations (these are sometimes referred to as “virtual visits” or “telemedicine”) take the same amount of time as regular office visits and are therefore billed accordingly. However, due to the inability to perform physical examination during telemedicine and virtual visits, you need to try to provide very complete information and an accurate description of any physical ailments. For skin rashes and other visible problems, digital photos sent by email are helpful and will aid in the assessment. You may need to have a physical exam by a local doctor if the condition warrants; you also appreciate that a full evaluation may not be possible but that in most instances we can share sufficient information to proceed with safety and effectiveness.

This agreement continues on the following page.

-------	---------------

❖ **MUTUAL UNDERSTANDINGS AND CONSULTATION AGREEMENT—continued**

- ◆ **International consulting practice / coordination of care with your chosen/local doctor:** Dr Vasquez's practice has changed over the years from primary care and general practice, to specialized care for patients with autoimmune/inflammatory diseases, and now to a consulting practice via telemedicine since Dr Vasquez is living and working abroad most of the year. As such, patients/clients need to understand that care will need to be coordinated with a local physician of the patient's choice and/or other physicians with whom Dr Vasquez has a working relationship. Dr Vasquez has several colleagues located (inter)nationally to assist with coordinating care, implementing treatment plans, etc. Given that we will often be working from different locations and time zones, patients are advised to have a local doctor with whom to discuss any urgent or routine health problems since Dr Vasquez is not available to manage these—this consulting service is limited to complex health conditions, particularly those of metabolic and inflammatory natures. Again for clarity, because of his teaching, traveling, and research schedule, Dr. Vasquez is not available on a 24-hour basis; you need to have another doctor with whom you can consult in the event of an emergency or urgent problem. If you notice an adverse effect from one of the components of your health plan, you should discontinue it then email/text/Skype Dr. Vasquez and inform him of what occurred. If you have a serious health problem that requires immediate attention, you should call your other doctors(s), call 911, or have someone take you to the nearest hospital emergency room.
- ◆ **Telemedicine:** For our audio-video meetings, we use Skype www.skype.com and/or Dr Vasquez's paid account with www.GoToMeeting.com as both of these provide excellent audio-video interface at no cost to patients. For all personal and professional consultations, please use: ConsultDrVasquez@gmail.com
- ◆ **Your consent to email-internet exchange of health information:** Consultations and exchange of information (forms, records, treatment plans, etc) will occur by internet and email; patients thereby consent to this means of exchange and any risks/vulnerabilities of their personal health information transmitted by email/digitally. Patients have full responsibility for maintaining the security of their computers and online accounts via which health information is communicated. Patients must agree to use digital correspondence such as email and Skype/video conferencing. Correspondence will be sent to the email address you provide with payment and/or other correspondence. Keeping your email/phone/messages/computer safely secured is your responsibility; if you are not willing to accept responsibility for using digital communications via email/phone/messages/computer/video and the attendant conveniences and risks, then you cannot work with Dr Vasquez because Dr Vasquez uses electronic-digital notes and correspondence with patients.
- ◆ **Legitimate concern / research:** Dr Vasquez has an authentic concern for his patients/clients; Dr Vasquez spends an incalculable amount of time researching biomedicine and therapeutics and has worked hard to develop protocols that are effective and to engage in ongoing expert-level teaching and learning. Dr Vasquez is invested in the care of each of his clients for 1) their wellbeing—first and foremost, and 2) for his ongoing research and progress in publications and presentations, which require demonstration of safety and success.
- ◆ **Voluntariness:** Both Dr Vasquez and the patient/client enter this consulting relationship on a voluntary basis; Dr Vasquez has training and expertise in many subjects, and patients/clients can access personalized treatment plans/proposals per private consultations with Dr Vasquez. Both/either Dr Vasquez and the patient/client may terminate this relationship at any time without consequence.
- ◆ **Patient responsibilities; duration of plan:** Patients are responsible to take treatments as directed and to follow-up as needed, at least once per every two months until their health problems/issues/concerns are resolved.
- ◆ **Modifications to this agreement:** If any changes to this agreement need to be made, the document will be updated and sent to you for your agreement. An audio-video overview of Dr Vasquez's consulting practice is available at <http://inflammationmastery.com/consultations/> and <http://vimeo.com/107624322>, which summarizes many of these points and is an extension of this agreement.

I understand and agree to the information on this page. My questions, if any, were answered to my satisfaction.

REVIEW OF SYSTEMS: I have designed the following form so that it will be easy for you to complete. Simply check the appropriate box for each attribute so that we can further discuss the specific areas of concern that you have—if you have additional comments or want to provide additional information, please make a note and we can discuss your concerns during the visit. Please provide additional information where you mark the answer “Yes→.” Your completing this form will enable us to work more efficiently during our time together and will allow a means by which to reassess your status on future visits.
